Fish highlighted in blue represent specimen fish caught by members that have also been accepted as new Club Record fish. Fish highlighted in orange represent specimen fish caught by members that have been accepted by the Angling Trust as British Record claims.
c	BR% denotes the percentage of the specimen fish as taken against the British Record weights, published on pages 31 to 34 in this Yearbook.

The RNRMAA Veterans SAC started registering our own specimen fish claims with the Angling Trust from 2023. In 2023 the Navy re-branded their name to the RNAA so Veterans decided to submit our own claims under our own club title from that year onwards. From 2020-2022 we added our fish claims to those submitted by the RNRMAA Sea Section. The data listed above represents the final club positions nationally within the Angling Trust Specimen Fish Award Scheme competition since our formation in 2020.
